SUBJECT Reservation of Seats to Scheduled Castes

With reference to your D O letter No L 15298 dated 21st March 1952, I write to state that it is not possible to furnish the population figures of the scheduled caste people as per 1951 census as no - separate figures have been compiled for each place but the total population of the urban areas in Chitaldrug District have been collected As such, the only means of our finding out the scheduled castes - population is to find out the population as per 1941 census and work out the approximate increase as per latest census Accordingly, the population of scheduled castes for 1941 Census is 3500 and the increase in population ~~of xxxx~~ at Davangere City is 76 per cent ~~approximately~~ On ~~the xxxix~~ this basis, the population of scheduled castes in Davangere City may be taken as 6000 approximately. This figure may be adopted for the purpose of reservation and fixing up seats for the scheduled Caste community people in connection with the General Election of this Municipality to be reconstituted from 1st July 1952

Reference L 795 dated 14th April 1952
Subject Population of Scheduled Castes in Davangere City

I regret figures relating to the population of Scheduled Castes are not available separately for Davangere City, having been merged in the District Urban Total In the absence of these figures, only two courses are open, namely, to treat the 1941 proportion of Scheduled Castes to the total population of Davangere City to be valid for 1951 also or to assume that the proportion of Scheduled Castes in Davangere to the total population of that town would be the same as the ratio of these classes to the total urban population of the District

The following figures will be found useful in deducing the required information regarding Scheduled Castes in Davangere City

1	Total population of all the towns in Chitaldrug District including Davangere City	135,961
2	Population of Davangere City	56,018
3	Total population of Scheduled Castes in the urban areas of the District	11,888
4	Proportion of Scheduled Castes to the total District Urban population	1 11 43 or roughly 1 to 11
5	Estimated population of Scheduled Castes in Davangere City	Roughly 5,000

AMENDED CITY MUNICIPALITIES ACT 1951

Reconstitution of the Davangere City Municipality with effect from 1st July 1952

As Government have been pleased to extend the term of Office of the Councillors of the Davangere City Municipality upto the First day of July 1952, action has to be taken to - reconstitute this City Municipal Council with effect from - 1st July 1952 on the basis of Adult Franchise from single member Constituencies and also to provide for the reservation of seats in the Council for the Scheduled Caste

Before taking action to prepare the Electoral Rolls, Clarifications are urgently required on the following points Viz ,

I Since Elective Seats are not fixed on the basis of population as in the case of New Town Municipalities Act, 1951, it is a ~~xxxx~~ point for determination if the total strength of the Elective Seats of this City Municipal Council is to be - fixed by Government as per section 9 (1) of the amended City Municipalities Act 1951 as approved on 20-12-1951

2 Is action to be taken to fix up the boundaries only after the total elective strength of seats are fixed up by Government?

3 As no rules regulating the conduct of Elections of members to the Municipal Council of City Municipalities are issued so far, as to who should act as Returning Officer, the time prescribed to publish the Preliminary and Final Electoral Polls, as also the date for filing objections in regard to the entries of the Electoral Rolls etc, definite orders are required to know as to whether any rules in this behalf would be issued by Government under the amended City Municipalities Act or whether ~~xxx~~ the one issued by Government in their Notification No L2150-M1 92-33-5 dated 18-9-1933 and which is inforce at present has to be adopted in future also?
